For those who don't know how armor works in War Thunder, these are the multipliers that show the effectiveness of armor. This is why your super pershing isn't as effective frontally as you think.

Types of Armour

- . Rolled homogeneous armour (x1.00 armour rating)
- . Cast homogeneous armour (x0.95 armour rating)
- . Structural steel (x0.50 armour rating)
- . Aluminum Alloy 7039 (x0.45 armour rating)
- . High hardness rolled armour (x1.25 armour rating)
- . Face hardened armour (x1.05 armour rating)
- . Gun steel
